Music academy in Regensburg with DYNACORD *The Hochschule für katholische Kirchenmusik und Musikpädagogik Regensburg* relies on DYNACORD

Renovation of the HfKM academy in Regensburg lasted two years and involved not only architectural changes but also the installation of state-of-the-art audio equipment. TRE Professionelle Audiotechnik performed the installation, and opted for systems from DYNACORD

Straubing / Regensburg, December 2008 Since its foundation in 1874 as the world's first Catholic academy of church music, the HfKM in Regensburg has attained great international prestige. The historic building was recently renovated as part of a two-year programme of rebuilding and expansion, with particular importance attached to the quality of the audio equipment in the academy's various concert and lecture halls. *TRE Professionelle Audiotechnik*, based in Parkstetten in Lower Bavaria, was entrusted with the audio installation. Robert Ernst, head of TRE explains:

“The managers of the HfKM wanted very high audio quality and reliable partners—terms in which they included not only the installation firm but also the manufacturer.”

To satisfy the academy's requirements, Ernst opted for systems from DYNACORD. The concert hall, which seats more than 150 people, now boasts four DYNACORD VariLine VL262 two-way, full-range cabinets in the stalls and two more VL262 cabinets in the gallery. The speakers provide complete, seamless audio coverage throughout the hall.

“The VariLine is ideally suited to this type of application,” explains Ernst. “The cabinets offer outstanding performance despite their relatively compact dimensions.” For this reason, TRE also installed the system, which has proved its worth in a very wide variety of sound reinforcement installations all over the world, in the HfKM Choir Rehearsal Room as well as in the lecture theatres (VL262 and VL62). The speakers are driven by DYNACORD LX 1600 amplifiers and controlled by a DYNACORD P64 digital audio matrix. The entire system brings the installation at the prestigious music academy into line with the highest modern standards.

“The academy’s house technician and managing director are highly impressed by the new audio equipment,” says Ernst. “It’s tidily integrated, delivers outstanding sound quality and is easy to use. I’ve even heard that the quality of the installation has far exceeded their expectations. We couldn’t have asked for more.”

About *TRE Professionelle Audiotechnik*

Based in Parkstetten in Lower Bavaria, *TRE Professionelle Audiotechnik* has established itself throughout Bavaria as a specialist in audio installations of all kinds. Among the company’s references are sports arenas (such as the ice rinks in Passau, Weiden and Straubing), schools (Berchtesgaden, Abensberg), homes for senior citizens (Regensburg, Au), swimming baths (Burlengenfeld, Bad Füssing), shopping centres (Ramstein, Neumarkt) and trade fair halls (Passau, Pfarrkirchen). About the HfKM

Founded in November 1874 by Franz Xaver Haberl as the first catholic school for church music anywhere in the world, the HfKM has established a worldwide reputation. Under the direction of its rector, Prof. Franz Josef Stoiber, the academy offers courses of study in subjects ranging from Catholic church music to music education and campanology. For more information, visit www.hfkm-regensburg.de.

The Bosch Group is a leading global supplier of technology and services. In the areas of automotive and industrial technology, consumer goods, and building technology, some 271,000 associates generated sales of 46.3 billion euros in fiscal 2007. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in roughly 50 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than 3 billion euros for research and development, and applies for over 3,000 patents worldwide. The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering."

The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.
