

CXM 15 - Compact high-performance monitor from Dynacord

April 2009
ST/MKT-COM

- ▶ The CXM 15 from Dynacord is a 15-inch, coaxial, two-way monitor for professional applications
- ▶ Its special strengths are very high SPL, a compact footprint and lightness

Straubing, April 2009 Dynacord presents the new CXM 15: a compact, light-weight, high-performance monitor for demanding applications. The coaxial 15-inch/1.4-inch chassis boasts a radial coverage pattern of 60 degrees and can achieve sound pressure levels as high as 135 dB at 102 dB sensitivity. If desired, the CXM 15 can be switched to bi-amping mode. For additional operating safety and reliability, the device is equipped with Voice Coil Tracking Protection.

The enclosure is very compact and agreeably low-slung. Recessed grips on all sides facilitate handling. If needed, the CXM 15 can also be pole-mounted for full-range applications. A flying adapter is in preparation. Three parallel Speakon sockets cover all practical requirements. The device comes in black or white. The CXM 15 provides outstanding performance and very good penetration at a very reasonable price.

Technical specifications

Sensitivity: 102 dB

Max SPL: 135 dB

Power handling: 450W (RMS) / 1,800W (peak)

Nominal impedance: 8 Ω

FIR and IIR presets for RCM-26, DSP-260 and DSP-244

Weight: 19 kg

snapshot: April 22, 2009

The Bosch Group is a leading global supplier of technology and services. According to provisional figures, some 282,000 associates generated sales of roughly 45 billion euros in the areas of automotive and industrial technology, consumer goods, and building technology in fiscal 2008. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than three billion euros for research and development, and applies for over 3,000 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.

The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.
