## **DYNACORD D 8A** The active sister of the top seller

- ▶ With D 8A, the manufacturer is responding to the oft-expressed wish of customers for a powered version of the D 8
- ▶ The device is equipped with a DND8200-8 neodymium chassis, a constant directivity HF horn and a DH3 driver from Electro-Voice
- ▶ Suitable for live music, AV and fixed installation

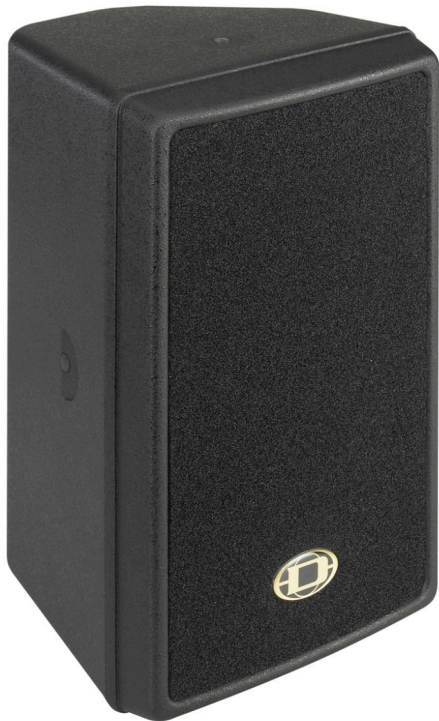

**Straubing, March 2010** In response to numerous requests, DYNACORD presents the D 8A; the powered version of the popular D8 system from the D-Lite series. Equipped with a 2 x 400 watt Class D power amplifier, an electronic crossover and loudspeaker equalization, the system is suitable for a wide variety of applications. The D 8A is ideally suited to the creation of active 3-way high powered systems in combination with active subwoofers – whether in the live music, AV or fixed installation area.

The D 8A is equipped with a low-distortion DYNACORD DND8200-8 neodymium chassis for the bass and midrange. The symmetrically radiating, constant directivity HF horn with its 90° x 90° nominal coverage pattern and CAD optimized integration into the baffle is equipped with the DH3 driver from Electro-Voice. Outstanding performance is achieved by very high sound pressure, a sonic image characterized by low distortion even at its extremes and a very high degree of intelligibility.

*The Bosch Group is a leading global supplier of technology and services. According to preliminary figures, some 270,000 associates generated sales of roughly 38 billion euros in the areas of automotive and industrial technology, consumer goods, and building technology in fiscal 2009. The Bosch Group comprises Robert Bosch GmbH and its more than 300 subsidiaries and regional companies in over 60 countries. If its sales and service partners are included, then Bosch is represented in roughly 150 countries. This worldwide development, manufacturing, and sales network is the foundation for further growth. Each year, Bosch spends more than 3.5 billion euros for research and development, and applies for over 3,000 patents worldwide. With all its products and services, Bosch enhances the quality of life by providing solutions which are both innovative and beneficial.*

*The company was set up in Stuttgart in 1886 by Robert Bosch (1861-1942) as "Workshop for Precision Mechanics and Electrical Engineering." The special ownership structure of Robert Bosch GmbH guarantees the entrepreneurial freedom of the Bosch Group, making it possible for the company to plan over the long term and to undertake significant up-front investments in the safeguarding of its future. Ninety-two percent of the share capital of Robert Bosch GmbH is held by Robert Bosch Stiftung GmbH, a charitable foundation. The majority of voting rights are held by Robert Bosch Industrietreuhand KG, an industrial trust. The entrepreneurial ownership functions are carried out by the trust. The remaining shares are held by the Bosch family and by Robert Bosch GmbH.*
